

Ocean Expedition with Jacques Cousteau

A MyT4L Lesson

Name _____

Complete the Animal Fact Sheet to learn about animals that already exist. Then, use the information about animal and plant adaptations that you learned to create a new species of ocean plant or animal. Answer these questions about your new species.

Name of Animal:

Where does this animal or plant live in the ocean?

What does it eat?

Who are its predators?

What kind of adaptations help this species survive?

Draw a sketch of this species on the back of this page.
